PASSAIC VALLEY WATER COMMISSION

NOTICE OF CONTRACT AWARD

EMERGENCY SITUATION

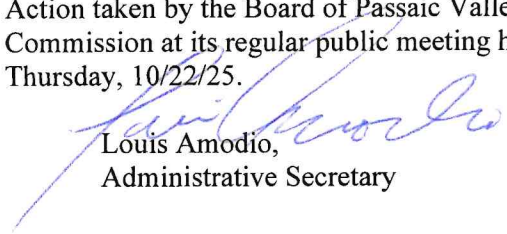

Passaic Valley Water Commission, a Municipal Corporation of the State of New Jersey, located at 1525 Main Av., Clifton, N.J., has awarded a contract without competitive bidding as an "Emergency Service" pursuant to N.J.S.A. 40A:11-6.

The resolution and certification authorizing it, on the recommendation of the Executive Director and the Director of Engineering, and on advisement of General Counsel, are recorded in the Minutes and are available for public inspection in the office of the Administrative Secretary, Passaic Valley Water Commission, 1525 Main Ave., Clifton, N.J.

To: Fletcher Creamer & Son, Inc.

Services: in October of 2025, during inspection of the Levine Reservoir Inlet Line, it was discovered that approximately 1,000 linear feet of the water main is severely deteriorated; and the deterioration includes exposed sections of pipe at the ground surface, excessive vegetative growth and tree growth directly over the alignment, compromised joints and an active leak; and these conditions represent an imminent threat to PVWC's ability to maintain continuous delivery of finished drinking water to the Levine Reservoir, which supplies the 180-gradient of PVWC's distribution system; and failure of the inlet main could result in an unplanned outage, flooding and interruption of drinking-water service to large portions of PVWC's customers; and PVWC is presently undertaking the Levine Reservoir Improvements Project, and replacement of the inlet line while the reservoir is temporarily out of service will minimize operational disruption and avoid significant additional cost and risk; and PVWC has determined that immediate replacement of the inlet line is necessary to protect public health, safety, and the water supply; and the replacement work will be performed along the existing water main alignment by J. Fletcher Creamer & Son, Inc. through a change order to the existing Levine Reservoir construction contract; and in the opinion of the Supervising Engineer and the Executive Director, that the conditions constitute an emergency affecting the immediate health, safety or welfare of the public, and require an immediate performance of services and procurement of necessary goods and services as a result of the emergency; and the Supervising Engineer has executed an Emergency Certification dated October 17, 2025, documenting the deteriorated condition of the existing inlet line and recommending that the work proceed under emergency authorization pursuant to N.J.S.A. 40A:11-6 and the aggregate expected cost of the required goods and services provided to remedy the emergency (which exceeded PVWC's stipulated threshold of \$53,000.00 required for public bidding) is \$2,123,077.00; and

This is to certify the within is true and correct
Action taken by the Board of Passaic Valley Water
Commission at its regular public meeting held on
Thursday, 10/22/25.
