EXIT 6 RAMP OFF ROUTE 21 NORTH IN BELLEVILLE WILL BE CLOSED WHILE PASSAIC VALLEY WATER COMMISSION REPAIRS LEAK

FOR IMMEDIATE RELEASE

(Belleville, N.J. – May 11, 2023) Beginning this Friday, May 12, Passaic Valley Water Commission (PVWC) will work around-the-clock to permanently repair a leak on the exit 6 ramp, off route 21 North, in Belleville. The ramp will be closed for approximately two weeks during the work period, so commuters are encouraged to use an alternate route of travel. PVWC's engineering team worked with state and local authorities to finalize a plan to address this issue safely and diligently. We will notify everyone if there are any changes and/or when repairs are complete. Thank you for your patience.
